4) Sand Barrell naming contest - This had been talked about. Is this something we want to do again. We have time if we want to. Collect slogans for a month, then we would have stickers made up to put on the sand barrels. What did we do last time? Andy will research it, it was about 3 years ago and Sebago Elementary won.

5) Safety Survey Proposal - Peerless Ins - A representative from Peerless Insurance has come out a few times to review our facilities, playgrounds etc. This last time, they suggested doing an "Employee Safety Perception Survey". Is this something we should do? It could give us some good information. Each of the Safety Committee members could speak to it at a staff meeting and explain the importance of having this information. Andy will move forward and ask the Peerless representative what our next step would be.

6) Other - Weight room has had a couple of injuries lately. Andy and I will review this further.
