  - SES - Randa Viitala, June Berry
- 4) Texting Group update - There is a sign up at the High School, trying to figure out a place for the second one, possibly route 302, need permission from DOT. T-Shirts were ordered and wore them while asking for pledges from students and staff not to text while driving. A demo is scheduled on May 17th, 9am to 1pm. Students that have their licenses can participate in the demo.
- 5) Other - Andy handed out the Employee Safety Training Handbook and asked for feedback to make changes prior to the new employee orientation day.

There are a lot of veteran staff that could use an update on a lot of this information. Andy is looking for suggestions of how to get to these people. There is a lot of training that can be done on line and with most all employees having laptops, this would be a great opportunity to have people get trained or re-trained and have it at their convenience.

On May 22, 2012, a representative from Peerless will be visiting the District to review our playgrounds.

People need to be trained on how to use School Dude and the importance of using it.
